Cool Controller Competition: Entry Tips

1. Register to receive support materials via email. Including; a comprehensive student Cool Controller Design Notebook (with links for video tutorials) and a general Design Playbook for teachers. These materials are designed to help step your students through the design process for this competition. Note: NSW DoE teachers should use their DoE email address to register.
2. Download the Cool Controller Competition Guidelines from the ‘Resource’ section of the Cool Controller Comp website.
3. Make sure your students' design solution is an original concept. Try doing a Google search to confirm this.
4. Make sure you have reminded your students to check their annotations and pitch information for grammatical and spelling errors.
5. Your students' visual representation and annotations should be persuasive to help promote your idea.
6. Your students' ideas must clearly show how their design solution is sustainable and has the potential to reduce energy use in your classroom.

Thank you for entering - good luck!
