

Quick Start guide External providers registration

EFSG Technical Standards websites

Quick start guide for registering and accessing EFSG Technical

[Access to the Education Facilities Standards and Guidelines EFSG v2.0 website](#) is publicly accessible and does not require a login.

Access to the EFSG [Technical Standards](#) website is restricted to professionals registered through buy.nsw

The Technical Standards website requires a login and password, as it contains specialist information for the design and delivery of NSW public school facilities.

Accessing EFSG Technical Standards website

Accessing the EFSG [Technical Standards](#) website

If you were already a registered user of the original EFSG website working as an external consultant or contractor, you will need to re-register your details for continued access.

Step 1: Confirm your registration as a supplier through [Supplier Hub | buy.nsw](#). If you are not a registered supplier, please register yourself as soon as possible to enable access.

Note: Following your registration on Supplier Hub, it may take up to 48 hours for the synchronisation process to complete with the EFSG technical standards website system before you can re-register to gain access to the Technical Standards website

Step 2: Have ready your supplier ABN, contact email* and, if relevant, SINSW project code to successfully complete the registration process. The project code starts with the letter 'P'. Please contact the relevant project team if you require this code.

Note: SINSW Project Code (TREIGN code) is required only when you are not already registered in the [Supplier Hub | buy.nsw](#) or unable to register using ABN and email. When registering with SINSW project (TREIGN code) on the project you are working on, please refrain from entering your ABN

Step 3: Navigate from EFSG Technical Standards login page to "Register here" listed under "External Providers".

Technical Standards

[Home](#) > [About Us](#) > [EFSG 2.0](#) > Technical Standards Login

Internal DoE Staff
For DoE staff, please use the link below to log in.

External Providers
For users from a DoE supplier or working on a school infrastructure project, please use the link below to log in.

Staff login

External provider login

Don't have an account?
[Register here](#)

IMPORTANT NOTE: Please have your supplier ABN, email or SINSW project code ready, to successfully complete the registration process.

[View the Quick start guide here](#)

Please note that individual team members can register for access using their registered supplier details.

Step 4: The registration page should look like the following. If it doesn't look like this, you are on the wrong page.

Step 5: Please supply your company email address and the company ABN used to register on Supplier Hub

Step 6: Complete rest of the form to enable registration.

Step 7: After a successful registration, you will receive an email from IDM requesting email activation. This email will contain your User ID, typically in the format of your firstname.lastname. Upon successful activation, you will be redirected to the DOE Extranet, where you can access the technical standards website.

Step 8. If this is your first time accessing DOE Extranet you may be asked to pick an account, you should pick the account with domain @externalstaff.education.nsw.gov.au or manually enter your account which is YOURUSERID@externalstaff.education.nsw.gov.au

Step 9: Welcome to the DoE Extranet. You can directly access Technical Standards website by clicking the "Education Facilities Standards and Guidelines(EFSG)- Technical Standards link .

The screenshot shows the 'External User Registration' page on the NSW Department of Education website. The page has a dark blue header with the NSW Government logo and 'Education' text. Below the header is a navigation menu with links for 'Early childhood education', 'Public schools', 'Teaching and learning', 'Student wellbeing', 'Skills NSW', 'Parents and carers', 'Policy library', and 'Teach NSW'. The main content area is titled 'NSW Department of Education' and 'External User Registration'. It includes a search bar, a breadcrumb trail (Home > About us > EFSG > User Register), and a registration form. The form is divided into sections: 'Verification' (with 'Email*' and 'Company supplier ABN' fields circled in red), 'Personal Information' (with fields for 'First name*', 'Last name*', 'Occupation', 'Contact phone number*', 'Street address*', 'Suburb*', 'State*', and 'Postcode*'), and 'Terms and Conditions of Use' (with checkboxes for 'I accept Terms and Conditions of Use' and 'I agree to receive correspondence from DoE from time to time', and a 'Submit Registration' button).

New EFSG Technical Standards - Quick start guide

Step 10: Welcome to the new EFSG [Technical Standards website](#). Here are some tips for navigating through the website:

- Please see legacy Design Guides (DGs) migrated into [Browse Worksections - 00 Planning and Design](#)
- Please see legacy Specification Guides (SGs) migrated into the rest of the NATSPEC worksections under Browse Worksections
- The numerical categorisation references used within the Worksections align with NATSPEC
- Kit of Parts will progressively replace all legacy Room and Spaces data sheets
- For existing projects, you may wish to refer to the [Archive section](#) to download legacy documents

Technical Standards

[Home](#) > [Technical Standards](#)

Welcome to the Education Facilities Standards and Guidelines (EFSG) - Technical Standards

The EFSG - Technical Standards are a set of specifications or guidelines that dictate the technical requirements, protocols or procedures for the detailed design of products, services or systems for schools. Technical Standards aim to ensure compatibility, interoperability, safety and efficiency in the design, development, and operation of the school-built environment.

These standards are intended to be used in conjunction with Design Frameworks and Standardised Hub Design Components in the [Education Facilities Standards and Guidelines \(EFSG\)](#) website.

The EFSG and EFSG - Technical Standards websites are maintained by [Schools Infrastructure NSW](#) and is updated regularly to reflect innovation and current industry standards.
