## Activity 3: Find your career match

Now the fun begins.

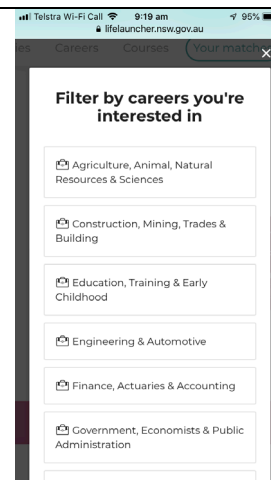

Let's start with going back to your quiz results.

Use your results to see what careers we've suggested for you.

There might be a lot, but you can filter them by the types of industries you're most interested in.

At this point, start exploring some of the careers.

What are your top five picks out of the suggestions? Why do you like those?

Job	Why it appeals to me

What two careers really surprised you?

1. \_\_\_\_\_ 2. \_\_\_\_\_

Do you think you might consider those? Why?

---

---

---

Are there any you really wouldn't want to do? Why?

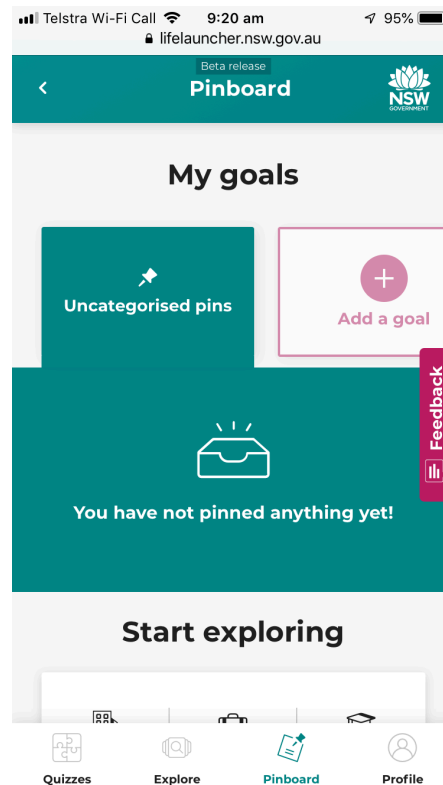

---

---

---

---

It's time to create some pin boards so you can save your top picks. You can log back in and come back to them later. You can do this at home, and have a chat to a family member about what you're thinking you might want to do after school.

You can use your career shortlist when you start exploring [Myfuture](#) and [Skills Road Virtual Workplace](#).

**Next step:** use Myfuture and Skills Road VR to find out more about the careers you're interested in.
