Activity 4: Find the course you need

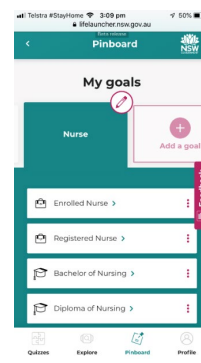

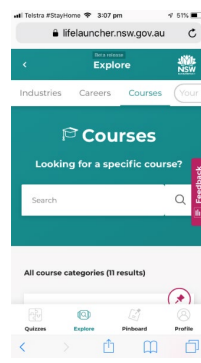

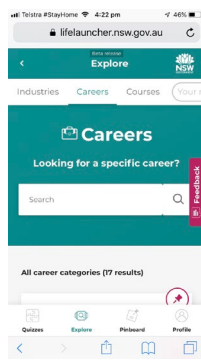

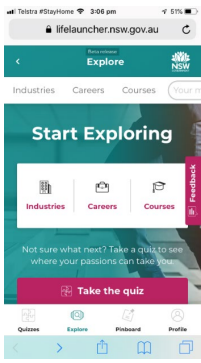

Welcome back to [LifeLauncher](#).

Are you still interested in the same careers you picked at the start? It's ok to change your mind!

It's time to go straight into exploring.

Use the explore function to find the course you need to do to get a good start in your career selection.

What are the careers you're going to find a pathway for?

Start by exploring each one, and then explore the course you might need to do to enter that career. You can add the courses you like to your pin board.

Now go back to the courses you've selected and find out where you can study them.

Course	Where to study

Well done! Your career options for when you've finished school are getting clearer. What else can you do to find out if these choices are right for you?
