

## AEDI Background Data Report

### Instructions for Teachers

This report contains data stored in ERN. It may help teachers to complete the background information and comments section on the AEDI checklist for individual Kindergarten children in their class. Each child's name appears three times in the report, on three consecutive lines, as there are three fields for languages spoken at home.

The report will provide the following information:

ERN Background Data Report Field	AEDI Checklist Question
Student name	<i>Background Information</i>
