

How to prepare Validation Reports

Validation Reports are used to identify any data fields that are missing from a student's record. Criteria can be specified to produce missing data that is considered important or all missing data. Within these categories, some data is considered high importance and the balance lower importance.

An example of high importance data is a student's emergency contact details, whereas, data of a lower importance could be a parent's education details.

A validation Report can be produced for a:

- Student Group
- Registration Offering
- Individual Student

To prepare a Validation report for a Registration Offer:

- Access reports through the Reports menu option
- Select Formatted Reports tab
- Click Validation Report from the tabs at the top of the screen
- Enter the report specific criteria to define the output requirements
 - Reporting focus – specify whether the report is to be group, registration offering or for an individual student (note, there are slightly different screens for each case – see below)
 - School Name
 - Registration Offer
 - Registration Status – select Active/Expelled/Deceased
 - Is Census – select All/yes/No
- Report Criteria
 - Alert Level – ALL produces both Red and Orange level, Red only, Orange Level only (Red are crucial requirements, Orange are data that is required but will not affect the system if not available)
 - Report Depth – headings – lists important data, detail lists all data missing
 - Colour – if colour is selected, the report will show results in Red and Orange, monochrome will be black and white. Colour may reproduce in lighter shades.
- Report Schedule
 - Report Name – enter a name so that the report is easily recognisable
 - Run report – select when the report will run
 - Report Format – PDF for printing, CSV to import to a spreadsheet
 - Email notification – if checked, file will be sent to email box
- To produce the report, click SCHEDULE REPORT
- To print the report, go to the **My Reports** option and print.

NSW Education Welcome to NSW Public Schools

NEWS FLASH

ERN School Enrolment

Welcome [redacted]

ERN Release 2.1.11 - October 3, 2015

ERN users please note the following fix to ERN to address issues for some circumstances where a student's parent has died.

Before marking the parent/carer as deceased in ERN, please make sure that:

- at least one parent/carer resides with the student.
- one financially responsible parent/carer with a valid address exists for the student

If the above two situations are not fulfilled, ERN validation may prevent you from updating the parent/carer record and an error message will appear.

Additional release notes available [here](#)

Information about changes made in ERN (September 2015) to accompany the new [Application to enrol in a NSW Government School](#) can be found [here](#)
