

School Based Apprenticeship

Automotive Body Repair Technology

Apprentices repair, maintain and re-manufacture the body of cars, heavy vehicles and other vehicles in the automotive service and repair industry. Apprentices will work with tradespeople employed as panel beaters, vehicle body builders/ repair technicians, vehicle body restoration technicians, or heavy vehicle body and chassis repair technicians.

Outcome on completion of your HSC

- Statement of Competencies achieved towards Certificate III Automotive Body Repair Technology AUR32116 from the AUR Automotive Industry Retail, Service and Repair Training Package.
- Stage 1 of the Automotive Vehicle Body Repair Technology Trade.
- Continuation of this trade training as a full time apprentice after school.

Course delivery

- Will be delivered both on the job and off the job.
- Two years part time during school, followed by three years full time post-school in both on and off the job training.

Commitment required

- Undertake a minimum of 130 days in paid employment and training.
- Undertake Certificate III Automotive Body Repair Technology Trade course as part of your HSC.
- The employment and training can be undertaken during school time, after school and during school holidays.

How will you be assessed?

- Both on the job and off the job through written tests, project work and practical exercises.

Course	ATAR eligibility	HSC unit credit
Automotive Body Repair Technology Trade	No	4 units over two years towards your HSC for the formal training component (VET course).
Industry-based Learning course (optional)	No	This optional course recognises the significant work component involved in the school based apprenticeship. The course offers an additional 4 units credit towards your HSC. This HSC VET course does not contribute towards the calculation of the ATAR.
