

School Based Traineeship

Aeroskills

This qualification applies to employees in aviation maintenance workshops. Jobs involve assisting with maintenance, inspection and fault diagnosis on a limited range of electrical, electronic, instrument and radio systems, components and parts on aircraft. You may be required to perform repair and overhaul tasks on a limited range of aircraft electrical, hydraulic, pneumatic, electro-hydraulic and electro-pneumatic components, or to perform simple repairs on a limited range of structural components.

Outcome on completion of HSC

- Certificate II in Aeroskills MEA20418 in MEA Aeroskills Training Package.
- Advanced standing into the aircraft maintenance sector of the Aviation industry.
- Credit towards higher level Aeroskills qualifications.

Course delivery

- Both on the job and off the job and can be delivered face-to-face, flexibly or mixed mode.
- The SBT term is calculated in months from the date of commencement to 31 December of the HSC year.

Commitment required

- Undertake a minimum of 100 days in paid employment and training.
- Undertake Certificate II Aeroskills course as part of your HSC.
- The employment and training can be undertaken during school time, after school and during school holidays.

How will you be assessed?

- Both on the job and off the job through written tests, project work and practical exercises.

Course	ATAR eligibility	HSC unit credit
Aeroskills	No	Up to 4 units credit over two years towards your HSC for the formal training component (VET course).
Industry-based Learning course (optional)	No	This optional course recognises the significant work component involved in the school based apprenticeship. The course offers an additional 4 units credit towards your HSC. This HSC VET course does not contribute towards the calculation of the ATAR.
