

School Based Traineeship

Water Industry Operations

Water Industry Operations involves roles in networks, irrigation, water sources and treatment of water. Certificate II trainees may work in water industry treatment, specialising in drinking water and covers skills required to monitor, operate and control treatment processes within a water treatment plant.

Outcome on completion of your HSC

- Certificate II in Water Industry Operations NWP20119 in NWP National Water Training Package.
- A career path into the water industry.

Course delivery

- Both on the job and off the job and can be delivered face-to-face, flexibly or mixed mode.
- The SBT term is calculated in months from the date of commencement to 31 December of the HSC year.

Commitment required

- Undertake a minimum of 100 days in paid employment and training.
- Undertake the Certificate II in Water Industry Operations as part of your HSC.
- The employment and training can be undertaken during school time, after school and during school holidays.

How will you be assessed?

- Both on the job and off the job through written tests, project work and practical exercises.

Course	ATAR eligibility	HSC unit credit
Water Industry Operations	No	Maximum 3 units over one year towards your HSC for the formal training component (VET course).
Industry-based Learning course (optional)	No	This optional course recognises the significant work component involved in the school based apprenticeship. The course offers an additional 4 units credit towards your HSC. This HSC VET course does not contribute towards the calculation of the ATAR.
