

Years 8 to 12 entry to selective high schools in 2024

Application information for parents

Please complete the application form on the [Selective high school and opportunity classes website](#) if you wish to apply for your child to enter a selective high school starting in Years 8 to 12. You can apply for up to three schools. Use a separate application form for each school and send it directly to the schools.

Important dates

Date	What happens
20 June 2023	The application form is available on the Selective high schools and opportunity classes website and on the websites of selective high schools
21 July 2023	Closing date for completed application forms to be returned to the chosen selective high schools.
July-August 2023	Schools advise parents of their assessment requirements
August-September 2023	Schools conduct assessments
September-October 2023	Selection committees meet and consider applications.
October-November 2023	Advice about the outcome of applications and enrolment sent

The number of vacancies in Years 8 to 12 will vary across academic Years and from school to school. Generally the number of vacancies is limited. Places in Years 11 and 12 may not be available in all schools.

Before submitting your application to the chosen selective high schools, you should go to each school's website and/or contact the school to find out:

- whether to send the application form by email or by mail
- the distance your child will need to travel to attend the school
- the school assessment procedures such as testing and school reports
- courses and programs offered
- selection criteria for placement
- boarding fees and possible financial assistance if applying for boarder placement

In this document: 'selective' includes fully selective high schools, partially selective high schools, Aurora College virtual secondary school and agricultural high schools. 'parent' is defined under the Education Act to 'include a guardian or other person having the custody or care of a child'.

Selective high schools

Selective high schools and opportunity classes are part of the department's offerings for high potential and gifted students, providing:

- specialist school settings that cater to their intellectual ability
- classes with peers who have similar academic ability
- an environment that supports their emotional wellbeing and social development.

Selective high schools include:

- Seventeen fully selective high schools where all classes are academically selective.
- Twenty-seven high schools with selective classes (partially selective) in Years 7 and above. Partially selective high schools have community classes as well as selective classes for English, science and mathematics. These include Sydney Secondary College Leichhardt and Balmain campuses which offer places in Years 7-10. Students from these schools generally proceed to Sydney Secondary College Blackwattle Bay campus for Years 11 and 12.
- Four agricultural high schools (three of which offer boarding places). Agricultural high schools are selective high schools that emphasise the study of agriculture. Boarding sections give some priority to isolated students and may give special consideration to brothers and sisters of students currently enrolled at the school.
- Aurora College where students intending to enrol in a government high school in a rural or remote location are eligible to apply. A list of eligible participating schools is available at <https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/year-7/information-for-applicants/aurora-college/rural-and-remote-high-schools>.

The complete list of selective high schools accepting applications for vacancies starting in Years 8 to 12 is shown at the end of this document. Not all schools fill vacancies in Years 11 and 12. Please visit the schools' websites to find out whether they are taking applications for vacancies in Years 11 and 12 before applying for those school Years.

Fees

As with all government schools, tuition at selective high schools is free, but schools may ask for a voluntary contribution to cover services such as library, textbooks and curriculum-related resources. Schools may also ask for contributions to cover the purchase of materials in

certain key learning areas and to cover costs associated with sports or excursions. Boarder agricultural high schools charge boarding fees.

Enquiries

If you have enquiries about applications, assessments or courses, contact the specific selective high school. Contact details are listed at the end of this document.

How to apply

Look up the school websites that are listed at the end of this document to find out about the courses offered by the school and the assessment requirements for entry to Years 8 to 12.

- Decide which selective high school/s you would like to apply for. You may apply for up to three selective high schools.
- Complete a separate application form for each selective high school you wish to apply for. You must list the schools you choose in **the same order of priority** on every application form.
- Attach a copy of the birth certificate or other document that verifies the student's name shown on each application.
- Send each form to reach the relevant selective high school by 21 July 2023.
- Complete any extra forms the school asks for.
- If a test is required by the school and if your child has a disability that usually requires adjustments at school, discuss these with the school to ensure equitable access to the test.

Providing information about disability

Information that parents and schools provide about disability is used for approving and arranging reasonable adjustments for entry tests, if applicable.

Reasonable adjustments are practical arrangements designed to support students to make a fair attempt to show their ability under test conditions, in accordance with the National Disability Standards for Education 2005.

Information about disability may also be considered for equity placement. Learn more about the Equity Placement Model in 'Selection procedures' below.

Information parents provide about disability cannot be used to restrict access to selective high school placement in any way.

Australian citizenship and residency status

Students seeking to enrol in selective high schools must be Australian citizens or holders of a visa granting permanent resident status in Australia. Find a list of visas and their eligibility for placement in selective high schools in the [Visa sub-class and enrolment conditions](#).

Information on Australian citizenship is available on the Department of Immigration and Border Protection website at: <https://immi.homeaffairs.gov.au/>. You can get a Certificate of Evidence of Australian Citizenship or a Visa grant notice to prove your visa status to the school.

Citizens of New Zealand are also eligible for selective high school entry. Permanent residents of New Zealand are considered in the same manner as temporary residents of Australia and are not normally eligible. If you do not meet these residency requirements at the time of applying but expect to meet them by the time offers are made, you are allowed to apply provided you are already living in Australia.

If you qualify for entry on academic grounds but do not yet meet the residency requirements, including those who hold diplomatic visas, you may ask for special consideration through the review process. If your application is successful, you must show original documentation, such as a Certificate of Evidence of Australian Citizenship, birth certificates or visas, before the school can enrol your child. Your child's offer may be cancelled before enrolment is finalised if it is based on false or misleading information.

Residential address

Your family must be living in NSW by the beginning of the 2024 school year. If your family normally lives in NSW but you are temporarily out of the state, you should expect to return before the student is enrolled in a selective high school. If you continue to live outside NSW after the 2024 school year begins your application will be considered only if there are vacancies remaining after all suitable applicants from NSW have been placed.

Application and selection procedures

This application information and the application form are available at:

<https://education.nsw.gov.au/public-schools/selective-high-schools-and-opportunity-classes/years-8-to-12> while applications are open.

Selective high schools also provide the link to the application form on their websites. Some selective high schools may have a link to a version of the application form that you can complete and submit online. The school may be able to print a copy of the application form for you if you are unable to use a computer.

Acknowledgement of receipt of application

Your application will be acknowledged by the school/s in writing.

Change of application details

If there is a change in details such as your child's name, address or school after you have sent your application form, please write to the selective high school(s) you have applied for. Write to those schools directly if you want to withdraw your application.

Selection procedures

The number of vacancies at selective high schools in Years 8 to 12 will generally depend on the number of students who leave in the previous year but some schools may create an additional class in a specific academic Year. In some schools there may be no vacancies in some academic Years. Schools may create reserve lists to fill any future vacancies within the school year.

For each selective high school, a selection committee will decide on the students to be offered places and will establish a reserve list in priority order on the basis of academic merit.

The selection committee comprises the selective high school principal and an additional member nominated by the principal.

The selection committee may ask for further information, source information from departmental sources or arrange for additional assessment procedures if required.

The selection committees will ensure under-represented groups have equitable access to placement, as for Year 7 entry. Where appropriate, this allows for extra consideration to be given where a student's performance is similar to those students at the school. There is no separate application process for parents wishing to have their child given this extra consideration.

The [Equity Placement Model](#) helps to make access fairer for the following under-represented groups:

- Students attending school in areas of low-socio-educational advantage
- Aboriginal and/or Torres Strait Islander students
- Students living in rural and remote locations
- Students with disability

Testing

If required by the selection committee, students may be asked to take a test of academic merit. In this case, the school will provide you with reasonable notice of the time, date and place of the test. Schools may request a test administration fee.

Some groups of schools share the results of tests between them. If you have chosen more than one of these schools, your child will have to sit that test only once. However, if the schools you have chosen require different forms of testing, your child may have to sit more than one test.

Where testing is conducted by the school, students found to be cheating or other malpractice risk disqualification from the test.

Notice of outcome

You will be notified in writing about the outcome of your application. Some later offers may be made by telephone. Students may be:

- offered a place
- put on the reserve list
- advised that they did not qualify for placement.

If your child is placed on a reserve list, it applies only to starting in the school Year you applied for. If unsuccessful you can apply in future to start in subsequent school Years.

This information will be provided by each school you applied for.

Response to offers

If you receive an offer, please respond to the school as soon as possible. If you do not respond within 7 days or within the time specified on your offer letter, the school will assume that you do not want to accept the offer. Where your offer is made by telephone you must respond within 24 hours.

If you will be away on holidays when offers are being made, you should leave contact details with the selective school(s) or delegate someone to respond on your behalf.

If you accept the offer, you will be sent an Authority to attend letter by the school. For government high school students, the selective high school principal will then arrange for the student's records to be transferred.

The offer will be withdrawn if the student fails to enrol at the school at the beginning of the school year without providing a satisfactory explanation.

You must negotiate any deferment with the principal. You cannot defer enrolment beyond the first day of Term 2, 2024.

If you accept the offer then later change your mind, please tell the school immediately so that the next eligible applicant can be offered the place.

If you decline the offer, you will be sent a letter to confirm this.

Reviews

If you wish to appeal the selection committee's decision, you should contact the school within 7 days of the date on the outcome letter with detailed reasons why you believe the selection committee's decision should be reviewed.

You can request a review if you have evidence that the stated criteria for selection were not considered or the stated process was not followed.

You should include information such as:

- factors which may have prevented the student from gaining a place
- any supporting material, where applicable. Reviews based on illness must include a medical certificate covering the date of the assessment.

Decisions cannot be reviewed if they are based on:

- other assessments such as NAPLAN or competitions
- in-class rankings of one candidate over another
- not being given additional consideration if the student is from one of the four under-represented groups (students with disability, students from rural or remote locations, students attending school in areas of low socio-educational advantage, Aboriginal and/or Torres Strait Islander students)
- disruption to learning while the student is on holiday or overseas
- pre-diagnosed or known illness or medical conditions
- moving house
- insufficient documentation supplied to the school with the application.

For performance-based reviews, only evidence relating to performance in 2022 and 2023 may be considered.

The selective high school will review the decision and will notify parents about the outcome. Following the outcome of the review, if you believe you have grounds to contest the decision, you can write to the Director, Educational Leadership responsible for the chosen selective high school. Find the relevant Director by calling the department on 1300 679 332.

Transfers and repeating

Students cannot automatically transfer between selective high schools. If your child is already enrolled at one selective high school and wants to go to another, you must fill out an

application form for entry to Years 8 to 12 and lodge it directly with the selective high school you want your child to attend. The application must be submitted before the closing date each year, for placement the following year.

If the student is currently enrolled in a selective high school and you wish your child to repeat the same Year in 2024, you should discuss the matter with the current principal before applying.

Enrolment policy

The NSW Department of Education has a responsibility to assess and manage any risk of harm to its staff or students. This includes assessing and managing risks posed to students or staff at a school by any student. Where relevant, such situations will be dealt with in accordance with the NSW Department of Education enrolment policies and procedures.

Information for parents regarding enrolment is at: <https://education.nsw.gov.au/public-schools/going-to-a-public-school/enrolment>.

Entry to boarder agricultural high schools

Priority for placement in boarder agricultural high schools will be given to geographically isolated students and then to other students in rural areas. Some priority may also be given to students who would have to travel extensively to study agriculture. The academic merit of boarders admitted to boarder agricultural high schools on the basis of isolation must be comparable to that of other boarders and day students at the school. For boarder placement, extra consideration may be given to students who have brothers or sisters already attending the school.

If applying for a boarder place you should complete all of the boarder agricultural school section on the application form including:

- isolation factors
- interest in agriculture
- ability to cope in a boarding situation.

In addition to satisfying residency requirements and other conditions for entry, enrolment as a boarder student is subject to the provision of a medical report for the student and the submission of a Residential student agreement.

Boarder Students

Farrer Memorial Agricultural High School has boarder and day places for boys only. Agriculture is a compulsory subject for Years 7 to 10.

Hurlstone Agricultural High School has co-educational boarder and day places. Agriculture is a compulsory subject for Years 7 to 10.

Yanco Agricultural High School has co-educational boarder students only. Agriculture is a compulsory subject for Years 7 to 10 and is optional in senior years.

For Farrer Memorial Agricultural High School and Hurlstone Agricultural High School, a student successful in gaining a boarder placement cannot later be automatically transferred to a day place as the placement process is different for boarder and day places.

Boarder Fees

Boarder agricultural high schools can charge an application fee, with payment required when you accept a boarder place. The school deducts that amount from the fees you pay when you enrol your child. If you withdraw your child after accepting the offer of a place, the application fee is not refundable.

In addition to satisfying boarder requirements and other conditions for entry, you must provide a medical report and pay the boarder fee. You must confirm the 2024 boarding fees and the timing of payments with the school. You must sign a Residential student agreement undertaking to pay the boarder fees when they are due.

Financial Assistance for Boarder Students

Find information about the following types of financial assistance at

<https://education.nsw.gov.au/teaching-and-learning/curriculum/rural-and-distance-education/rural-and-remote-education>.

- **Secondary students living away from home allowance (LAFHA)** Application forms are available from boarder agricultural high schools and the Allowances Officer, Secondary Students' Living Away From Home Allowance, Rural and Distance Education, PO Box 717, Bathurst NSW 2795. Telephone 02 6334 8070.
- Boarding Scholarships for Isolated Students (BSIS)
- **Assistance for isolated children scheme (AIC)**. Information about this scheme is published by the Department of Human Services. The information is available from Centrelink offices or you can telephone 132 318.

In addition, students may be able to obtain assistance from Youth Allowance

<https://www.servicesaustralia.gov.au/individuals/services/centrelink/youth-allowance> or

ABSTUDY <https://www.servicesaustralia.gov.au/individuals/services/centrelink/abstudy>, both of which are administered by the Commonwealth. Please contact the specific boarder agricultural high school for more details about schemes that provide financial assistance to boarder students.

Selective high schools

School	Details
Alexandria Park Community School	co-educational, partially selective Park Road, Alexandria 2015 Phone: (02) 9698 1967 Web: https://alexparkcs-c.schools.nsw.gov.au Email: alexparkcs-c.school@det.nsw.edu.au
