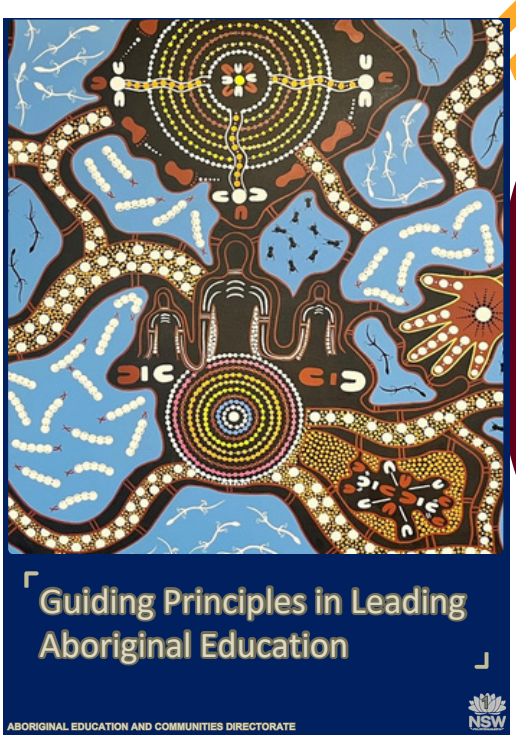
NSW Department of Education

# Learning Circle Term 4

# Culturally Responsive Teaching



## Learning Circle Overview

This learning circle is designed to strengthen educators' capability to embed the Aboriginal Histories and Cultures cross-curriculum priority into their teaching practice. It supports school executive teams and teachers to deepen their understanding of the key concepts of Country/Place, Culture and People, and apply these concepts authentically within teaching and learning programs.

Through collaborative analysis and practical application, participants will explore ways to incorporate local Aboriginal histories and cultures into their classrooms. This approach aims to enrich learning experiences and improve outcomes for all students.

Participants will learn to:

- analyse their teaching and learning programs aligned to the Aboriginal Histories and Cultures cross curriculum priority
- develop a deeper understanding of the key concepts of Country/Place, Culture and People and increase their knowledge of how to embed and implement this into their teaching and learning programs and practice.
- partner with community to embed local examples of Aboriginal Histories and Culture in learning activities
- apply this knowledge in their teaching and learning programs
