Links to Learning

Support for students at risk of disengaging from learning and/or at risk of leaving school early. The department funds NSW based not for profit, non-government organisations and community-based organisations to deliver targeted projects to students at risk (Year 6 – Year 11) of disengaging from learning and/or at risk of leaving school early.

Not all schools in NSW are involved in Links to Learning, and the target group for projects also varies, for example some schools may be involved in a project targeting Year 7 and 8 students, other schools may be involved in a project targeting Year 9 and 10 students.

The learning support team is the referral point for students seeking involvement in a project. The list of schools currently involved in Links to Learning projects is available at the [Links to Learning](#) website.
