# Lower case g

The lower case 'g' is a long letter. When we write this letter we start at the guide line, circle around and dip below the guides to form a hook.

Example mnemonic: Around and a hook!

Gi

Upper case G

Gg

The upper case 'G' is a tall letter. We start at the top and do a big curve to the left. We stop on our way back up before we get to the guide line, then we do a short straight line down.

Example mnemonic: Curve it to the left, then straight down!

Lower case   o

Oo

The lower case 'o' is a short letter.
When we write this letter we start at the top,
create a full loop and return to the start.

Example mnemonic: All the way around,
back to the start!

Upper case O

Oo

The upper case 'O' is a tall letter.
When we write this letter, we start at the top,
create a full loop and return to the start. It is
the same as the lower case 'o' but taller.

Example mnemonic: All the way around,
back to the start!
