

Question 1

When this grandfather was young, he used electricity for

- A. video recorders and televisions.
 - B. fridges and washing machines.
 - C. the copper and icebox.
 - D. **lights and radios. (correct)**
-

Feedback for incorrect responses

The student has not been able to locate directly stated information and might have gone to the wrong heading when scanning the text, if 'energy' was not recognised as a word having similar meaning to electricity.

Skill description

Locate key information in an informative text.

Syllabus

EN3-RECOM-01

Reading for interest and wide purposes

- Adjust reading approach to suit the purpose for reading

Learning progression

Processes UnT8 – skims and scans texts for key words to track the development of ideas
