### 1.1 DE International provides the following services to schools

- Registration of agents, Student Exchange Organisations and tour operators who operate inbound trips, including due diligence checks and child protection screening
- respond to enquiries concerning international students, exchange students, temporary residents, study tours, and requests for school links to establish relationships with schools
• preparation of fee submissions for approval of programs, collection of fees and disbursement to schools according to program type and visa subclass as outlined below
• development of study tour programs, including:
  o itineraries based on requests for specific programs, areas or information and activities
  o quotations based on approved pricing structure
  o identifying and matching schools to deliver the programs
• processing international student applications for enrolment, issuing visa and enrolment documents
• marketing and promotion of the international student and study tours programs
• student surveys and study tour evaluations and providing feedback to schools
• advice about and monitoring secondary student exchanges
• monitoring DE International programs for compliance with relevant federal and state legislation; national guidelines and department policies.

1.2 Temporary Residents Program – short-term visitor visa enrolments

Visitor visa holders (visa subclass 600, 601, 602, 651, 944) may enrol at a NSW government school through the Temporary Residents Program subject to the following:
• the application meets specific conditions of enrolment
• the school principal agrees to the enrolment
• the student is living with a parent or a direct relative who is over 21 years of age, of good character, and able to provide appropriate care and supervision of the student. A direct relative is a brother, sister, step-parent, step-brother, step-sister, grandparent, aunt, uncle, niece or nephew, step-grandparent, step-aunt, step-uncle, step-niece or step-nephew.

Visitor visa enrolments are restricted to a maximum of 13 weeks study and are subject to payment of the Temporary Residents Program education fees. Schools require an Authority to Enrol (ATE) issued by the Temporary Residents Program prior to enrolling a student.

An administrative fee is disbursed to schools to cover additional administrative costs.

Find Procedures for the enrolment of non-Australian citizens.

Find additional information about the Temporary Residents Program.

1.3 Study Abroad Program – short-term student visa enrolments

International students holding student visas 500P or 571P may enrol through the Study Abroad Program for a minimum of one term and a maximum of one year.

Schools receive a request for placement from DE International prior to the student’s enrolment.

Schools must not enrol the student without an Authority to Enrol (ATE) issued by DE International.

International students may be counted in the census for resources and 25% of the international student fee is disbursed to schools to cover the costs of compliance.
Find additional information about programs for international students in NSW government schools.

1.4 Secondary Student Exchange Programs

A secondary student exchange program is a reciprocal program whereby students from other countries enrol in a full-time high school program for a minimum period of one school term and a maximum period of one year. Under similar conditions Australian students undertake study in another country.

All student exchange programs must be conducted through registered exchange organisations. These can be private organisations or state or private schools but individual schools must first register with the NSW Registration Committee. Find a list of the registered student exchange organisations is available on the Department’s website.

From 1 January 2016, the National Guidelines for the Operation of International Secondary Student Exchange Programs in Australia (2015) apply within NSW and across Australia. Some registered student exchange organisations offer additional programs. Principals should ensure that if they agree to the enrolment of an exchange student that:

- it is through a registered student exchange organisation
- the exchange program meets the National Guidelines.

Schools require an Acceptance Advice for Secondary Exchange Student (AASES) form to enrol the student and principals must have agreed to the enrolment prior to the student’s arrival.

For further information about student exchange, email: studentexchange@det.nsw.edu.au.

1.5 Study Tours - groups of overseas students or adults visiting schools for educational, cultural visits.

Study tours are groups of students or adults who visit schools for periods of half a day and up to one term. Students on study tours hold tourist visas and do not enrol in the school. Study tours are commercial arrangements where schools are paid to host visits.

There may be some instances under special agreements or scholarships where groups of students are on long-term study tours for up to six months and hold student visas and are also considered a study tour.

Study tour operators must be registered with DE International as a study tour agent and meet all requirements, including those for child protection and insurance cover.

Study tour programs include teacher professional development tours for visiting groups of teachers, school staff and Ministry officials.

Schools should refer all enquiries and requests for study tours to DE International. DE International guidelines and requirements minimise risks to schools in all aspects of program operation.

With most study tours, 80% of the study tour fees are disbursed to schools.
Organisations or groups such as local councils, Scouts, YMCA, who request visits for their overseas student groups into NSW government schools as part of their international program or short term cultural visits, should be referred to the Study Tours Coordinator.

Find additional information about study tours.

Note – visits by overseas groups covered by an existing MOU between the Department and an overseas Ministry or Education Authority are generally not considered study tours under this policy.

1.6 Sister-school agreements involving hosting overseas groups and international travel – Guidelines for schools

A sister-school relationship is a voluntary agreement between two schools (or two groups or communities of schools) typically separated by distance in respect of geography and / or culture, to engage in cooperative and reciprocal activities for educational benefits of students and staff in the participating schools.

Sister-school relationships are formalised through the signing of a Memorandum of Understanding (MOU) which clearly outlines the specific cooperative activities the schools agree to pursue. Examples of activities could include:

- videoconferencing between classes or staff groups
- shared professional learning
- student e-pals
- shared student or class projects on mutually agreed topics
- educational visits between sister schools, involving students and staff. The duration of such visits should be less than three weeks and the intended frequency should be stated in the MOU.

Principals organising a visit to and / or hosting a visit from a sister school are responsible for ensuring the following:

- appropriate risk management procedures are in place for student and staff health, safety and wellbeing
- appropriate homestay or other accommodation is organised
- compliance with NSW child protection legislation
- appropriate levels of adult supervision
- travel insurance is obtained for all travellers
- transport arrangements are in place
- visits do not exceed three weeks
- compliance with the Excursions policy and implementation procedures.

Where sister-school relationships include visits from the overseas school, the MOU should specify the reciprocal nature of the visits and a commitment to establishing a balanced program of visits and other activities.

Where the sister-school relationship includes mostly hosting the overseas school, then the visit by the overseas group should be arranged as a study tour through DE International.
Individual schools are responsible for any costs associated with sister-school activities and this responsibility should be covered by the MOU. Sister-school relationships must not include commercial gain for any school, student or staff member, exchange of monetary donations or monetary gifts.

Find a sample Memorandum of Understanding (MOU) for establishing a sister-school relationship.
