

SILENCE IS GOLDEN

Online assessments are affected by 'internet noise' which can cause bandwidth issues and result in slower loading times.

Activities that cause 'internet noise' include:

- ✘ Online streaming videos or other large internet content
- ✘ Staff and students using BYOD devices connected to the school's internet in classrooms or the playground
- ✘ Videoconferencing

Please be aware to reduce or stop this internet activity during the NAPLAN Online School Readiness Test.

Our School Readiness Test week is:
